

Ortyn and The Aliens

The Joy of Christmas Day

*There's nothing more I'd like to do
Nowhere on Earth I'd rather stay
Than my dear friend to be with you
To share the joy of Christmas Day*

Just call me sentimental... I'm not too shy at all
To don my Yuletide spirit when summer turns to fall
All autumn I look forward to Saint Nick's holiday
As it draws near I cheer him to hurry on his way

*There's nothing more I'd like to do
Nowhere on Earth I'd rather stay
Than my dear friend to be with you
To share the joy of Christmas Day*

*Fa la la la la la la la... Fa la la la la la la la
Fa la la la la la la la... Fa la la la la la la la*

Your jolly invitation arrived today by mail
With sweet anticipation I'll be there without fail
Another year behind us... old Santa on his sleigh
This Christmas Eve will find us together come what may

*There's nothing more I'd like to do
Nowhere on Earth I'd rather stay
Than my dear friend to be with you
To share the joy of Christmas Day*

*There's nothing more I'd like to do
Nowhere on Earth I'd rather stay
Than my dear friend to be with you
To share the joy of Christmas Day*

*Fa la la la la la la la
Fa la la la la la la la
Yes my dear friend I'll be with you
We'll share the joy of Christmas Day!*
