

Save the Boy Scouts!

We've seen stunning court decisions make a shambles of our rights
Fairness has been turned against us... treachery has reached new heights
Gangs of cunning legal villains advocating evil sue
To infect us with the venom of the vile A C L U

They gain twisted satisfaction slaying virtue with sly tricks
Say one syllable in protest... they'll strike back with bats and bricks
Shady lawyers will revile you lacking any sense of shame
They'll defame you and defile you while they denigrate your name

*Praise the Lord and save the Boy Scouts... Place your trust in God above
Be not led astray by false doubts... Keep faith in this land we love
Our just birthright is God's country... Mankind's last best hope on Earth
We must do what's fit and proper to protect our nation's worth*

As our Founders braved grave peril let us take a valiant stand
To defend our proud traditions and dispel this wicked band
They're hell-bent to tear asunder all the godly good in life
Let's resolve to plow them under where they'll stir up no more strife

*Praise the Lord and save the Boy Scouts... Place your trust in God above
Be not led astray by false doubts... Keep faith in this land we love
Our just birthright is God's country... Mankind's last best hope on Earth
We must do what's fit and proper to protect our nation's worth*

Praise the Lord and save the Boy Scouts
Be not led astray by false doubts
Mount the charge and sound a shout out
As those bad old foes we rout out
In the shadows they're still lurking
Let's show them for who they are
One dang flock of blanking turkeys
Sanctifying the bizarre

*Praise the Lord and save the Boy Scouts... Place your trust in God above
Be not led astray by false doubts... Keep faith in this land we love
Our just birthright is God's country... Mankind's last best hope on Earth
We must do what's fit and proper to protect our nation's worth*

*We must do what's fit and proper
And pray God to do our best
To prevail and save the Boy Scouts
Till we've won we shall not rest!*
