

The Soul of JFK

*“And so my fellow Americans
Ask not what your country can do for you
Ask what you can do for your country.”*

How I wish I could've been there on that frozen winter day
When those timeless words were spoken from the soul of JFK

*And so fellow Americans let this be true of you
Ask not of your great country but for her what you can do*

Still respected and admired this uncommon mortal man
Made of courage under fire gave his life for what we stand

Generations he'll inspire though he left this world too soon
With his vision to aim higher we reached up to touch the Moon

*And so fellow Americans let this be true of you
Ask not of your great country but for her what you can do*

*“Let the word go forth from this time and place
That the torch has been passed to a new generation of Americans
Who shall pay any price to assure the survival and the success of liberty.”*

*And so fellow Americans let this be true of you
Ask not of your great country but for her what you can do*

How I wish I could've been there on that frozen winter day
When those timeless words were spoken from the soul of JFK

*And so fellow Americans let this be true of you
Ask not of your great country but for her what you can do*

*Let this be true of you
Ask not of your great country
But for her what you can do*
